CUSTOMER SATISFACTION TESTIMONIAL

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

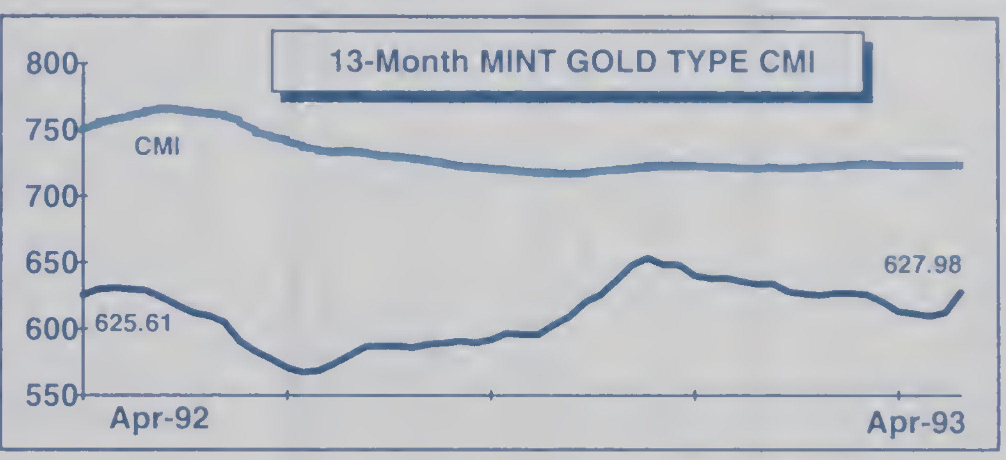
Mint State Gold Type Leads Slow Market
Selective Demand Continues as Norm

We are now in our fourth year of keeping statistics for the *Bluesheet CMI*. For the ease of comparison from one graph to another, we made the scale of the charts consistent (1990-1993; 550 minimum; 1250 maximum). While this has obvious advantages, it also has the disadvantage of 'shrinking' some substantial index movements down to an imperceptible size. Sometimes a fresh perspective on the market can be gained just by changing the scaling to give us a more detailed look at the ***CMI*** movements. In the April 2, 1993 issue of the Bluesheet, one short month ago, we ran a **12**-month chart of Mint State Gold Type to illustrate the volatility of these important coins over the most recent year.

So why are we revisiting Mint State Gold Type so soon? That is, other than their *central* importance to coin dealers, as well as the real possibility that spot Gold may *finally* be ready for a move. This week, Mint State Gold Type coins enjoyed a *substantial* covering of plus signs (88 issues advanced, and their ***CMI*** jumped 15.48 points!), compared to an overall market that most dealers described as "slow". On the 1990-1993/550-1250 scales, this movement is hardly visible. Indeed, the whole point of a graph tracing *long-term* price movements is that you don't want every little variation to show; of course, in ***real*** time, those "little variations" can mean enormous profits. When we shrink the time scale to *13 months* and expand the *CMI* scale, the market movements of the last month suggest that an upturn may be in the making. We aren't making predictions, naturally, but merely pointing out that changing scaling can provide details that *suggest* short-term future movements. And just to make things a little interesting, we changed the scale of this chart (compared to the April 2 issue) so that we could also show the graph for the whole market *CMI*.



Silver Commemoratives were steady, with a few scattered changes across the chart, the minus signs seem to be favoring the higher grades. Gold Commems declined as a result of discounted selling. Morgan Dollars remain balanced, with some healthy advances in MS64 & MS65. Peace Dollars moved in step with the Morgans, with most of the plus signs appearing in the MS64 & MS65 columns. Mint State Type coins were stable, with a few scattered changes. Mint State Gold Type advanced strongly, with nearly all issues below MS66 taking part in the rally.

Proof Type enjoyed some scattered advances. Proof Gold Type was steady. Buffalo Nickels continue strong in MS65 & MS66. Mercury Dimes were steady, with a few advances in the later dates. Walkers were steady in the early dates, with some advances in the later MS65 generics. Proof Singles were steady, with the Pr65 silver issues showing some gains.

WE NEED YOUR RARE COINS

If you have coins to sell, please contact us.

Silvano DiGenova and Stuart Levine of Tangible Investments of America, Inc. and Steven Contursi of S.L. Contursi, Inc. will be merging their respective rare coin enterprises. This remarkable combination of talent will combine to form a major rare coin organization of unprecedented experience, knowledge, talent and integrity.

AMONG THEIR COMBINED ACHIEVEMENTS ARE:

- ★ Founding member of PCGS, today the largest third party grading service. Also instrumental in assembling the PCGS grading set.
- ★ Orchestrated the sale of the famous Wayne Miller Silver Dollar collection, which realized over $1 million in 1986.
- ★ Purchased and sold the Clifford-Kagin Territorial gold collection valued at over $2.9 million in 1988.
- ★ Major buyers in the famous Garrett, Bareford, Eliasberg, Brand and Carter sales.
- ★ As Senior Vice President, Steve Contursi guided the growth of Blanchard and Company, Inc. from a $1/2 million in U.S. numismatic sales to over $4 million in sales per month.
- ★ Key buyer in the Norweb collection auctions, purchasing in excess of 10% of the entire collection.
- ★ Number one purchasers in the:
  James A. Stack sale
  Trompeter Gold sale
  Floyd Starr sale
  Stack's 55th Anniversary sale
  these and many, many more sales.
- ★ Purchased the last part of the fabled Lavrene Redfield hoard.

Together these unique partners have purchased in excess of $1/2 billion in U.S. rare coins. Now they combine their numismatic expertise, overall integrity and financial stability. Our multi-million dollar inventory will speak for itself. This partnership combines over fifty years of numismatic experience. Call today and see what a difference it is to deal with a real Rare Coin firm.

CUSTOMER SATISFACTION TESTIMONIAL

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

1992 was the year of the

BIG DEAL.

No one was involved in as many of the Big Deals of 1992 as THE MINT.

In 1992, we purchased the following multi-million dollar deals:

- ☆ The Martin Paul Collection of Half Dimes
- ☆ The John Story Jenks Collection of early United States Proof Sets
- ☆ The R.E. Naftzger Collection of 1793-1814 Large Cents

In 1993, The Mint is looking to purchase more "big deals." Do you have an important collection of coins for sale? If you do, you need to call Jay Parrino first.

For important collections and significant rarities, THE MINT IS THE MARKET!

For more information and a copy of our latest price list, please call Jay Parrino at (816) 373-2646.

Selective Market Shows Plus & Minus Movements Current Levels Set by Current Trades

This week found the coin market little changed, with selective Bidding and buying still the dominant theme. Some dealers are interpreting some general weaknesses in Bidding support as a sign of weakness, while others point to the continuing advances of selected issues as a real positive. Of course, in a selective market, both opinions can be correct; freely operating supply and demand forces will raise the Bid on those issues in demand, and drop the Bid on those issues in supply. A healthy market will show coins moving in both directions, even if we all prefer to see 'rosy health' with more plus signs than minus.

Heritage Numismatic Auctions held another of their popular Bullet sales last week at the Spring All-American Coin and Stamp Show held in Santa Clara, California. Prices Realized totaled $474,442, with many of the lots squarely in the 'collector value' range; no doubt this was appreciated by the collectors in attendance. This show is growing in popularity, as are other 'regional' shows; numismatists will gladly devote a few hours of travel time, as long as enough dealers attend to make the effort worthwhile. Not every collector can afford the time or expense of a trip to Long Beach or the ANA, but the prospect of just a few hours of driving time can make a 'regional' show irresistibly attractive.

Among the Heritage Bullet highlights (see inset).

Silver Commemoratives are showing scattered advances in the lesser ones but the Bidding support above MS64 is still thin; fortunately, only a few discounted sells are lowering Bids. Gold Commems showed just a touch of weakness. Helped by an upward jump in generic Bids, Morgans are showing quite a few plus signs. For all the activity in Morgans, Peace Dollars were steady. Mint State Type coins were steady, with most of the advances in the MS64 and MS65 columns. Mint State Gold Type is still showing signs of life, with scattered advances in the collectable grades.

Proof Type coins were steady with scattered advances, while Proof Gold Type was steady with a handful of minus signs. Buffalo Nickels showed just a handful of advances this week, after last month's major advances in MS65 & MS66. Mercury Dimes were steady, with generic MS66FBs still cheap even after an advance. Walkers advanced nicely, with many plus signs in the MS64 through MS66 columns. Proof Singles were steady with a few advances.

THE $4,000,000,000 CUSTOMER SATISFACTION TESTIMONIAL

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

Coin Values Set by Action and Example Good Buys Can Happen 'Below Market'

Every so often we revisit the topic of ***value*** (some might say *too* often), usually when some market event reminds us that dealers don't always agree on a coin's value. There is *usually* only one *highest* bidder in the market, but an *efficient* market means that there should be numerous others not too far behind, sharing a concept of value. Sometimes, however, markets (or to be more specific, dealers in the market) send mixed signals about value; when that happens on a regular basis, it is clear evidence of some confusion in the dealer community about the value of a coin. Uncertainty about prices may be understandable when considering *truly* rare coins (who knows what the duPont 1804 $1 will realize - when and if it crosses the auction block?). More troubling is when such confusion occurs on a very basic item; a coin which everyone knows and which trades regularly. Sharing the value concept means a healthy market, because trades are taking place; otherwise, trades can still take place, but one man's uncertainty can mean another man's profit.

Let's take a look at the 1921 Peace Dollar. Hardly a rare coin, but certainly always a ***desirable*** one (pursued by both Type and Date collectors, as the first year of issue, and, some would argue, as a *separate* Type). The 1921 in MS63 shows a combined PCGS/NGC population exceeding 1800 pieces, so we know that there are enough pieces to dissuade anyone from attempting to corner the 'floating' supply. Also, dealers are quite familiar with the issue, and share wide-spread agreement on how that coin in that grade should look, so *quality* should not be that great an area of disagreement. In conclusion, we have a well-known coin that is actively pursued by collectors and dealers, a coin that dealers like to stock due to its steady demand. There should be near unanimous agreement on the value of this 'staple' item.

Instead, looking at the electronic exchanges and messaging services this week, we saw the following range of **sight-unseen** offers to buy (and this list is just a sampling of activity): $170; $178; $180; $195; $212; & $215. Among the **sight-seen** Bidders was additional interest at $200 & $210. What is this 'very basic' coin worth? The ***Bluesheet*** reports the highest visible **sight-unseen** (and we might add "*unrestricted*") Bid seen in the marketplace, a practice which would *normally* yield a $215 Bid level. Why "normally"? This week, an MS63 specimen traded electronically (and **sight-unseen**) for just $178. We didn't have the opportunity to inspect this coin, so any number of possibilities exist: This could be the *ugliest* MS63 Peace Dollar ever certified, and worthy of a very low price; The seller might have been in a rush to make a 'guaranteed' sale with quick payment; The seller might not have had the time or been *willing* to search for the higher Bidders. Either way, the odds favor the Buyer getting a great deal, buying a coin with a built-in profit of at least 20%. **If** a large number of specimens were to sell at the $178 level, that would be evidence of the coin's true value, and we would need to carefully examine the earnestness of the higher Bids; but with the infrequent, isolated low sell on a 'common' rare coin, it's probably best just to ignore the occasional "rip".

COMMITMENT

FUNDAMENTAL FOR SUCCESS

For many of today's numismatists coin collecting started at a young age with the discovery of a few 'old' nickels or pennies. As we grew older, the excitement of finding, trading and collecting coins stayed with us. Eventually, the hobby became a business and the business grew into an industry. But as an industry our standards have often been considered too loose for coins to be recognized as a serious investment option.

At the NUMISMATIC GUARANTY CORPORATION OF AMERICA, we are committed to advancing numismatics—both as a hobby and as a business.

This commitment goes beyond simply providing superior and consistent coin grading services to a select dealer network. In the coming months NGC will announce a series of unique, valuable and exclusive plans and programs designed to foster pride, professionalism and growth. Watch for details.

PROOFLIKE MORGAN DOLLARS

P L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep mirror Prooflikes. Bids for P L's are usually much lower than for DMPL's but [illegible] premium over non-PL strikes.

Central States Looks Golden
$20 Saints Rally on 'Bad News'

As dealers head into Chicago for the Central States Numismatic Society Convention (Rosemont, May 21 to 23), all eyes are on gold and silver bullion. As the precious metals continue to rise in reaction to events (or perhaps to be more precise, the *lack* of events) in Washington, they are dragging rare coins along with them. Is the *Press* being their usually overly negative selves? To date, Americans have only seen higher taxes, higher expenditures, higher deficits, higher unemployment, and higher trade deficits; where do we see mention of the pride that should come from doing all these things better (with practice!)? With the passing of Clinton's '100-day' grace period, the *Press* has begun to focus on both his failure to accomplish any significant economic reform and the possibility of an accompanying significant rise in the inflation rate.

We don't often talk about politics in our editorials, but dealers have to recognize that *if* we are about to embark on a major boom cycle, that the *demand* is being *entirely* fueled by *politics*. The rise in Bids we are seeing ***now*** owes its existence to events in Washington, and *not* anything happening in the corner coin shop on Main & First. So what do dealers need to keep their eyes on? While 'picking on' the President is a much-beloved American institution, precious little coverage is being devoted to the Congressional role in the failure to make any significant progress in improving the economy. At some point, expect Clinton to start 'pointing fingers', and the resulting acrimony should be sufficient to prevent any real reform for some time. Continued economic uncertainty should create added demand by these new buyers, above and beyond that of the true coin collecting ranks. Dealers will need to be able to evaluate these very different *demands* if they are to better balance their inventory positions, as well as knowing where to watch for signals of the next turning point.

In the meantime, dealers are bracing for an enjoyable ride. While inventory positions are certainly lower than in many years, dealers always enjoy watching their inventories *appreciate* in value. This week's ***Bluesheet*** includes Supplemental coverage of the $20 Saint-Gaudens, and the jump in generics is abundantly clear. How substantial? One short month later, MS63 Saints are Bidding higher than MS64s were just 30 days ago! At this point, we are seeing only an average number of increases in Bid on the rarer dates, but if generics continue to rise, the rare dates ***will*** rise with them. Dealers who have lived through these cycles before will be able to maximize their profits, and from what we hear from the dealer ranks, many expect to be holding onto their "profit-taking" mentality as long as humanly possible. For most smaller dealers, that means acting as an *agent* whenever possible, rather than aggressively expanding their own inventory exposure.

While activity seems to be picking up across the market, there are no results comparable to Mint State Gold's 9.55 point CMI rise (coupled with an astonishing 23.50 rise in the CMI for Saints!). Morgan Dollars are also starting to show increased activity and higher generic prices; these are less noticeable in the Peace Dollars.

THE $4,000,000,000 CUSTOMER SATISFACTION TESTIMONIAL

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

Gold Drives Market Surge
C.S.N.S. Activity A Rehearsal for Long Beach?

Riding a surge of activity spawned by the rise in bullion, the coin market has suddenly become ***hot***! The "rally" (and that is probably *not* too strong a word to use for a cycle barely three weeks old) may have begun on the purchase of gold by new buyers with their *'new'* money, but the enthusiasm has quickly spread to both dealers and collectors. Dealers seem to be anticipating a *sustained* rally, based on their predictions of no 'good news' coming out of Washington in the immediate future; this is evident in Ask prices increasing even faster than the rising Bids.

The initial demand for coins with high gold content has encouraged collectors to begin actively pursuing *other* coins, with the greatest activity focusing on the Morgan and Peace Dollars. Silver Commemoratives changed only slightly, while Gold Commems advanced through MS65. Morgans enjoyed strong gains, both on generics & better dates; demand remains centered on the MS63 & MS64s, with plus signs in all the columns. Peace Dollars are also moving upward, again strongly in MS63 & MS64. Mint State Type was fairly quiet, with scattered plus signs. Mint State Gold Type was strong through MS65; demand is still weak for the ultra-gems. Proof Type coins were steady, as was Proof Gold Type. Buffalo Nickels are moving *again* in MS65 & MS66, while Mercury Dimes are unchanged. Walking Liberty Halves are steady in the early years, with many plus signs on the later issues (especially the generics).

Anyone forgetting that the market for rare coins feeds at the table set by plain old gold bullion had their reminder during May. Of course, every cycle has its own character, and the latest growing demand for gold has its own 'twist': many of these new buyers *want* MS61, MS62 & MS63 *certified* coins. Coins that might not have been 'worth' certifying before are now being slabbed in large numbers. Although the primary attraction of these coins remains their high bullion content, the buyers obviously enjoy having the 'numismatic' premium guaranteed.

More than one dealer noted the irony that a coin market rising on bad news (of the economy), can produce such *good* news for dealers. Enthusiasm accompanying rising prices characterized the Central States Numismatic Society Show, and as expected yielded very healthy prices at RARCOA's $1.2 million Auction. Dealers predict the 'good times' will continue through next week's Long Beach *"Coinfest"*. With the Stetson University Collection Sale of Bowers & Merena (May 27-29), Superior Galleries May 30-June 1, 1993 Auction, and Heritage's Long Beach Auction, there will be *plenty* of coins available to meet the demand. Add those coins to the bourse and you should be able to meet nearly any demand.

Among the certified highlights of RARCOA's Central States Numismatic Society 1993 Annual Convention Sale:

Issue	Certified Grade	Price Realized
1795 Half Dollar (O-120)	NGC60	$14,850
1795 Dollar, B-14	NGC62	$18,700
1838 $2.5	PCGS65	$25,300
1802/1 $5	NGC61	$5,720
1931 $20	PCGS64	$24,750

Dealers and Collectors in Rosemont also had the opportunity to select some very choice material out of Heritage Numismatic Auctions' Bullet sale, which realized a total of $517,622. Among their highlights:

Issue	Certified Grade	Price Realized
1880 Trade $1	PCGS Pr66	$7,810
1880 Morgan $1	PCGS Pr66	$4,730
1880 $1 Gold	PCGS67	$5,280
1860 $2.5	NGC Pr64 Cam	$14,850
1875-CC $5	NGC45	$5,060

Spectrum Summer Sale!

PROOF LIKES!

Spectrum Numismatics has recently acquired a freshly graded original batch of "Proof Like" Morgan Silver Dollars. These coins were previously untouched for nearly 50 years, resting in a Nevada Bank. Prooflike Silver Dollars have always been the fancy of Morgan collectors, due to their superior sharpness and mirrored fields which is the result of early striking and highly polished dies. We have the following:

Dear CCDN Subscriber,

Below are a few of our new purchases. Please remember we will NOT be undersold on any item. So if we have what you want — CALL Spectrum NOW

Spectrum Numismatics Int'l

1900 $2½ PCGS PROOF-66 .... $16,000
A gorgeous two-tone cameo. Superbly mirrored fields accent the creamy devices. 1989 high was over $50,000 — CALL NOW!

1907 $20 High Relief PCGS-65 ... $27,500
The classic American coin that everybody wants to own. A partial wire rim encircles this chiseled piece of Americana. They don't come any nicer.

1911 MATTE PROOF SET! NGC
$2½-67 $5-66 $10-65 $20-65 .. $142,500
A charming original set accompanied by the original envelope it rested in since 1930. We sold a similar set in 1989 for 375K. We feel this is an unparalleled chance to buy a real performer for the next Bull run. Remember — when this is gone there are no more — not ever at twice the price.

Gold Swings During Long Beach Week

Bowers & Merena Hammers $4.9 Mil; Superior $4.7 Mil

The first two major events of the L.A. "Coinfest" have been concluded, and both were Blockbusters! Auctions by Bowers & Merena reported total Prices Realized exceeding $4.9 million for their Stetson University Collection. Superior Galleries' "The May 30-June 1, 1993 Auction" reported total Prices Realized exceeding $4.7 million. Six days of intense activity, and $10 million in rare coins have found new owners. The combined auctions simply required the attendance of America's leading dealers and collectors; add in Long Beach, and the "Coinfest" has become a "can't miss it" event. With the big buyers in town, both auctions enjoyed *serious* floor bidding activity.

At the Stetson Auction, it bears mention that Pattern coins accounted for four out of the top twenty Prices Realized (and Proof specimens, thirteen out of the twenty). Among the certified highlights of the Bowers & Merena Sale:

Superior's auction was especially heavy in high-grade and rare-date gold, an attractive combination that was sure to attract spirited bidding. Among the certified highlights of the Superior Galleries Sale: (see second inset)

As the dealers of America pick up their newly won treasures and head down to the Long Beach bourse, the "#1" topic of conversation continues to be gold. Just one short week ago (remember the 'good old days'?), gold bullion was climbing as if there would be no tomorrow (at least on Capitol Hill), and dealers were busy calculating how to maximize their profits from the rise. Nary a word was said about the long-standing 'tradition' of gold dropping just before Long Beach and we won't legitimize such silly 'dealer's tales' by even mentioning them However, gold and silver did dive just as Long Beach was about to begin Had the "curse" struck again? As of this writing, gold moved back up $5, thus regaining about half of what it had lost. Even with the swing in bullion, plus signs in this week's Bluesheet outnumber the declines nearly three-to-one. Specially strong were Proof Type coins, Walking Liberty Halves, and Proof Singles. While the Morgan Dollars weighed in with an impressive 111 plus signs, a shift in generics and some discounted selling yielded 66 declines as well; even so, the Morgans continue to exhibit all the signs of healthy market adjustments.

YOU CAN TELL A LOT ABOUT A GRADING SERVICE BY THE COMPANY IT KEEPS.

The Trompeter Collection

1907 High Relief $20 Gold Piece, Graded MS-69, is virtually perfect.

Since our inception, the Numismatic Guaranty Corporation of America has kept company with some of the world's greatest collectors: Lovejoy, Pogue, Milas, and most recently, Ed Trompeter. Why do these distinguished collectors choose NGC to grade and encapsulate their priceless treasures? Because of our honesty, integrity and consistency in grading.

Ed Trompeter spent years compiling *the finest and most complete* U.S. Proof Gold Coin Collection. To preserve it for future generations, Mr. Trompeter insisted on NGC to grade and encapsulate the famous collection. He chose NGC not only for our consistent grading, but also our quality holder to best display the proof gold coins. Mr. Trompeter strongly believed that the Numismatic Guaranty Corporation of America was the one and only grading service to which he could safely entrust this unique collection.

NGC takes great pride in the reputation that we have built throughout the years. We are honored to be in the company of such great collectors and to be their choice to grade such superlative collections. NGC pledges to continue this long standing tradition of excellence and grading integrity. We will always provide precise, independent grading for all numismatists worldwide.

Solid Long Beach Coin Show Quiet Strength Characterizes Market

The week before Long Beach it looked as though rapidly rising gold prices were going to turn the Show into a buying 'free-for-all' (come to think of it, 'frenzy' might be a better expression). Mint State Gold Prices, especially in the lower ranks of uncirculated, were rising rapidly, and buyers were quickly stepping in to fill their Buy orders "before prices rose even higher". Then gold reversed itself a few times, and the immediate pressure was off the buyers. Uncertainty about the direction of gold, however, did not seem to diminish the demand for the other series that the initial gold rush unleashed. Just try to figure!

Overall, the non-gold market continues to be distinguished by selective Bidding, with certain grades on certain charts garnering much of the activity. Silver Commemoratives were quiet, with only a few scattered price changes. Gold Commems enjoyed some healthy increases in the middle grades. A jump in generic Bid levels accounts for most of the plus signs seen on the Morgan Dollar chart, as activity continues strong on this much loved series. Peace Dollar activity seems to be picking up a bit, with scattered plus signs on the early dates.

Mint State Type coins are much in demand, with activity at current levels increasing; predictions for plus signs are 'in the air', but prices are remaining mostly steady for now; many of the advances will be found in the MS64 and MS65 columns, suggesting a 'trickle down' advance. The Mint State Gold Type chart is showing advances, on the heels of another spot rebound. The volatility in Mint State Gold Type contrasts notably with the steady Bid levels in the Early Gold Type Supplemental chart.

Proof Type is still gathering quiet strength, with increasing Bidding activity on many coins, even though Bid is rising on only a few. Like their Mint State counterparts, many of the advances are in the Pr64 and Pr65 columns (with a few in Pr66); continued increases in the upper grades often creates increased demand in the Proof61 through Proof63s. Proof Gold Type ignored all the 'hoopla' over spot and turned in a steady performance. Buffalo Nickels, which had been booming in MS65 & MS66 slept last week (with just a few advances). Mercury Dimes, which slept while the Buffaloes stampeded, were strong in late-date MS65FB & MS66FB. Walkers were very strong in both the lower and middle dates and higher-grade later dates.

Heritage Numismatic Auctions presented a two session Bullet Auction at the Long Beach Coin Show. Total Prices Realized were reported at $622,178. Heritage has done a fine job making sure that their Bullets include "something for everyone"; there were many lots valued below $100 as well as the following highlights:

Issue	Certified Grade	Price Realized
1851-C $2.5	PCGS53	$5,060
1861 3¢ Silver	PCGS Pr67	$5,170
1796 Dime, JR-2	NGC62	$7,920
1833 Dime, JR-5	NGC65	$4,730
1875-CC 20¢	PCGS65	$6,105
1916 SL 25¢	PCGS65FH	$15,400
1853 A&R 50¢	PCGS64	$5,060
1860 50¢	PCGS Pr65	$5 253
1795 $1, B-1	PCGS50	$6,655
1795 $1, B-1	PCGS50	$5 170
1893-S $1	PCGS50	$10,450
1895 $1	NGC Pr66	$23,320
1922 Grant w/s	NGC66	$17 600

The difference in prices realized by the two 1795 Dollars serves as a reminder that all coins are a little different, that early coins even more so, and beauty (and the desire to spend dollars in the pursuit thereof) is in the eye of the beholder!

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P.L.s are usually much lower than for DMPL's, but command a premium over non-P.L. strikes.

The Grading Service of Choice

More collectors, investors *and professional* coin *dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

Market Firm with Rising Activity Selective Advances Icing on Cake

This is supposed to be another summer of 'box-office' hits, although we don't expect to see "Son of Gold Spot vs. Summer Doldrums" up on any marquees quite yet. Still, that is the way the battle is shaping up. The typical summer doldrums aren't any surprise to coin dealers; after one or two years of experience, the pattern becomes obvious enough. Auctions continue to do well, but until the ANA convention, both retail and wholesale business seem to grind along at a low level. Well, we've seen no signs of that yet, to be sure.

We also aren't seeing signs of a boom, the one sure antidote to the summer doldrums. Activity is up, with increased trading at current levels (and slightly below when the "quick sale" is desired); increases in Bid levels are occurring only on selected items, but they are occurring. On the weekly charts, more than 400 issues advanced; not spectacular, but sure and steady is still the best way to lay a foundation. Still, we cannot point to any single factor in the market that indicates a major market movement; even our *CMI* has been "lazing along" recently. But this too is probably good news, as long as activity is up and coins are trading, and customers are buying. After some of the more recent market vacillations, dealers report (on behalf of themselves *and* their customers) that they are quite prepared to enjoy a steady market, with the "good news" of sporadic upward spurts occasioned by "bad news" coming of out Washington.

So if we aren't in the doldrums, how are dealers characterizing this market? Some coins are going up, and a few are going down. All in all, the charts showed nearly twice as many plus signs as minus signs; not too flashy, just "nice and steady". Coins are trading in the vicinity of their Bid levels. All in all, it sounds like a *pretty healthy* market for the beginning of summer (or any other season, at that). If Gold Spot had continued to rise, it would be a very different story by now, but at least we're still headed in the right direction! The $20 Saint Gaudens supplemental chart, especially in the lower grades, has plenty of plus signs despite gold's recent roller coaster ride.

Silver Commemoratives were steady, with some scattered discounted sells (many in MS65); Gold Commems were likewise steady and also showing the results of a few dealers wishing to move material below Bid for a quick sale. Morgan Dollars continue to look healthy, with some substantial increases in the MS61 & MS62 columns; ignore the drop in MS64 and MS65 generics, and you have a healthy market. Peace Dollars are enjoying quite a few advances in the lower uncirculated grades. Mint State Type looks *very* healthy, with advances found across most of the chart; not too flashy, mind you, just *real* solid. Mint State Gold, on the other hand, seems to be having trouble deciding whether it wants to be a market leader or not; this week, the *nots* won. Proof Type is also advancing, quietly and steadily. Proof Gold Type is steady as (nearly) always.

Among the specialty series, Buffalo Nickels are back to major advances in the MS65 column, with interest in the MS66s climbing as well. Mercury Dimes are firm, with most of the advances on selected MS65FB and MS66FB issues. Walking Liberty Halves were nicely strengthening in the later dates. Proof Singles were mainly unchanged. Standing Liberty Quarters have also registered some impressive gains during the last month.

YOU CAN TELL A LOT ABOUT A GRADING SERVICE BY THE COMPANY IT KEEPS.

The Trompeter Collection

1907 High Relief $20 Gold Piece, Graded MS-69, is virtually perfect.

Since our inception, the Numismatic Guaranty Corporation of America has kept company with some of the world's greatest collectors: Lovejoy, Pogue, Milas, and most recently, Ed Trompeter. Why do these distinguished collectors choose NGC to grade and encapsulate their priceless treasures? Because of our honesty, integrity and consistency in grading.

Ed Trompeter spent years compiling *the finest and most complete* U.S. Proof Gold Coin Collection. To preserve it for future generations, Mr. Trompeter insisted on NGC to grade and encapsulate the famous collection. He chose NGC not only for our consistent grading, but also our quality holder to best display the proof gold coins. Mr. Trompeter strongly believed that the Numismatic Guaranty Corporation of America was the one and only grading service to which he could safely entrust this unique collection.

NGC takes great pride in the reputation that we have built throughout the years. We are honored to be in the company of such great collectors and to be their choice to grade such superlative collections. NGC pledges to continue this long standing tradition of excellence and grading integrity. We will always provide precise, independent grading for all numismatists worldwide.

Rare Coin Supplies Increasing
Will Discounts or Demand Make the Sale?

The coin market, always subject to the 'simple' basic laws of supply and demand, never-the-less manages to demonstrate that there are many complex aspects to a *fluid* market. Dealers have been commenting on the large supply of coins which have appeared on the market, seemingly in reaction to the recent increase in demand. Demand, at its simplest, has the effect of taking coins off of the market and placing them with willing buyers - that is by *definition*; then, according to *theory*, increased demand acting on a stable supply forces prices to rise.

In *real life*, however, the coin supply is never stable. Demand acts upon the *floating supply*, that is, the coins that are being actively offered in the marketplace at any one time; this is the combined supply of the bourse, active inventories, sales publications, and auction catalogues. Rising demand often results in an ***increase*** in the *floating supply* of rare coins available. Even without price increases, increased activity can bring out new coins; dealers who have been holding back inventory to avoid depressing price levels on an 'over-stocked' market will take advantage of the increased demand to adjust their inventory. Many collectors and investors, on the other hand, will take a rise in market prices as a sure signal that the time to sell is ***now***. Either way, more coins will trade hands.

That is exactly what we are seeing in this market. More coins are trading, more dealers are reporting higher levels of activity, and more active Bids are being seen in the marketplace. What we are *not* seeing is the rise in Bids that would normally accompany such an increase in activity. The relatively stable prices are resulting from a growing supply of rare coins joining the *floating supply*, and thus helping to hold prices steady. There are plus signs to be found on this week's ***Bluesheet*** charts, to be sure, as dealers recognize that they must offer higher prices to fill selective Want Lists. There are also minus signs, as dealers discount material to 'make' the transaction. The short term direction of this market will be decided by which activity comes to dominate; for several months, the plus signs have been nicely outrunning the minus signs, but this week many of the charts are showing increased discounting. The bulk of the prices, however, reflect the stability expected with increased activity at current levels. Over the short-term, market direction will be established by ever-changing balance between floating supply and demand.

Silver Commemoratives were steady, with most of the changes due to discounted sells. Gold Commems, unfortunately, just don't seem to be able to hold onto their gains. Morgan Dollars, which had been one of the strongest market segments, are slightly on the minus side of steady this week; Peace Dollars are showing a little weakness as well. Mint State Type is continuing to look strong; Mint State Gold has lost some of its glitter of late. Proof Type is also looking strong, with advances in the better grades; the strength of the two main Type charts is feeding many dealers' optimism. Proof Gold Type is steady as expected. Buffalo Nickels continue strong in MS65 & MS66 again this week. Mercury Dimes are steady, with a few scattered increases. Walking Liberty Halves were hot this week, with a strong Bidder staking out his claim on the early dates and better grades. Proof Singles were mixed, with most of the advances in the better grades.

How to Put the Most Cash in Your Pocket !

Not all MS65 coins are equal. In today's coin market, the big question is, "who says it's MS65?" And both coin dealers and the coin buying public are choosing PCGS as the best answer to that important question.

There are many factors that contribute to the PCGS position as the grading service of choice for the rare coin industry. The bottom line is that PCGS COINS ARE WORTH MORE! In almost all instances and in almost all grades, a coin in a PCGS holder will sell for more than a coin graded by any other grading service. Coins graded by other services sell at a discount to PCGS prices. That is a fact.

But don't take our word for it. There are two facts that nobody will dispute that prove that PCGS coins are the most desirable. We've graded more coins than any other grading service even though we charge more to grade coins. Why do dealers continue to pay the higher PCGS grading fees? Because even after our fees, their coins are worth significantly more. And there's a simple test that you can do to prove to yourself that PCGS coins bring the most cash to your pocket. Let's focus on the two facts that show why dealers choose PCGS.

Fact #1:

PCGS grades more coins than any other grading service. PCGS has graded over three million coins (3,106,396 to be exact). No other grading service has even graded one million coins. Every month PCGS grades more coins than all the other grading services combined. In most months PCGS grades twice as many coins as all the other grading services combined. And this has been the case for every month since PCGS opened its doors in February, 1986.

Fact #2:

PCGS charges more to grade coins than any other grading service. PCGS is the most expensive grading service.

How do these two facts prove PCGS grading equates to the highest value for your coins? Simple. The majority of coins submitted to third party grading services belong to professional coin dealers. The overriding concern in business decisions made by coin professionals is maximum profits. Coin dealers want to sell their coins for the highest possible fair price. Coin dealers prefer to have their coins graded by PCGS (and pay the higher PCGS grading fees) because they make the most money that way.

A Simple Test to Show You How to Use Grading Services to Maximize Cash in Your Pocket

You can test the value of coins in the holders of the various grading services by making a few phone calls. Many dealers will quote prices over the phone for third-party graded coins. Pick out one or two coins you own or are considering buying. Call a few dealers and say you want to sell these coins. Say you have one or two examples of a certain coin that have been graded by PCGS and you also have one or two examples of the same coin that have been graded by another grading service. When you ask for their cash "buy" price, coin dealer "buy" prices for PCGS graded coins will be higher than for coins graded by other grading services in almost all instances.

When some dealers sell you coins they may tell you that the prices are the same, but when it comes time to put their own cash on the line, coin dealers will almost always pay the most for PCGS graded coins.

If you do a little checking around you will soon prove to yourself two extremely important facts about today's coin market. FIRST, PCGS COINS ARE WORTH THE MOST MONEY AT SELLING TIME. SECOND, COINS GRADED BY OTHER GRADING SERVICES SELL AT A DISCOUNT TO PCGS PRICES.

Warning: Don't Overpay When You Buy Coins

Most coin dealers are honest businessmen trying to provide a quality product at a reasonable price. Unfortunately, a few dealers use deceptive sales methods to overcharge for coins by misrepresenting the value of coins which have been graded by grading services other than PCGS. These dealers sell non-PCGS coins at PCGS coin prices and tell clients there's no difference in the grading services.

Don't Be Fooled

If a dealer offers you a non-PCGS coin and tells you it's worth the same as a PCGS coin, call a few other dealers and say that you have the same coin for sale and see what reaction you get. You'll quickly find out if the dealer trying to sell you a non-PCGS coin is telling you the truth.

How to Buy the Best Coins

When you buy rare coins, you certainly deserve to get what you pay for. If you buy a coin for the PCGS price you should get a PCGS coin. Don't let someone try to talk you into second best. Choose coins that offer the most cash in your pocket when it's time to sell... BUY PCGS COINS!

Mint & Proof Type Advancing Vacations Take Toll on Activity

Not very long ago, we were reporting a steady market with increasing levels of activity; this week, the market has done quite a turn-around — plus signs are abundant on many charts, while activity has fallen off substantially. The decline in activity is expected, as dealers take advantage of the break before ANA to squeeze in some much needed vacation time. The increase in Bid levels, while always welcome, was not expected.

Even more surprising is where the plus signs are located. Mint State Type and Proof Type both showed a notable number of advances (and few declines!), in what can only be interpreted as a show of real market strength. We have been waiting for some time for the non-gold Type charts to show the kind of activity that signaled a market growing from solidity to strength. For this many plus signs to appear in a less-than-active market is surprising; it makes you wonder how many more plus signs might have been generated if all of the players were participating!

Morgan Dollars, which are traditionally strong, also turned in a solid performance (against a recent lackluster record). We expect Morgans to be strong as part of the basis on which a market rally can grow; we look for confirmation in the strong "collector" charts of Silver Commemoratives, Mint State Type, Proof Type, and Peace Dollars. Two of these indicators, as discussed, are very strong, but Silver Commemoratives and Peace Dollars can only be described as steady. The ***final*** (and just maybe the *most* important) 'ingredient' for signaling a rally, however, is a strong market in Mint State Gold Type - and that is lacking. If last month's gold rally was still going strong, our telephones would be ringing off the hooks with dealers predicting a major market rally. As it stands, most dealers are adopting a wait and see attitude on predictions, and a 'plunge-in' and make money attitude in the active segments. So, is the market strong? It sure is if you have learned to be flexible enough to take advantage of the activity in the charts where it is occurring. For the past two years, we have been watching this type of selective Bidding activity, and it certainly seems to have become the norm.

Other good news is to be found in the specialty series. Buffalo Nickels, which have performed admirably for several months now, continue to look strong; even with raising their Bids, dealers don't seem to be able to procure enough of the quality specimens they need to meet the current demand. Mercury Dimes were strong this week as well, with several dozen advances. Walking Liberty Halves also turned in a positive performance, with some discounted selling being more than offset by numerous increases in Bid.

The other half of selectivity, of course, are those charts where little activity is taking place, or where mainly declines are to be found. More often than not, Gold Commemoratives have found themselves in this unenviable position, and this week is no exception. Mint State Gold Type showed plenty of changes this week, but a small majority were declines; still, there remains the 'good news' of several dozen advances. A strong market in Mint State Gold doesn't guarantee a market rally, but we can think of few rallies that weren't supported by plenty of plus signs in this critical chart.

Selective Issues Continue Rise Will A Bullion Rally Fuel ANA?

The coin market remains little changed from last week, with many dealers on vacation. Despite the lower levels of activity, the dealers who are *busy* seem to be *very busy* — there are many plus signs on selected issues. Serious Bidders are advancing Bid on issues that they need now and are unable to procure at current levels. As the demand in the market continues to manifest itself in very specific areas (and even more specific grades), general concepts of supply become less significant. It does the buyer little good to know that there are millions upon millions of dollars worth of certified coins currently available in the marketplace if the *one* he wants cannot be found. If your Want Lists are long and general, this is a buyer's market; if your Want Lists are short and specific, you just may have to pay more.

This summer's doldrums received still another blow when Gold and Silver staged a major rally earlier this week. If Spot prices continue to rise, you just know that the ANA in Baltimore later this month will be the scene of some *serious* activity. Volatility in coin prices is a given when Silver can advance 5% in one day. We have remarked about Gold's volatility over the last several months; it still shows no signs of settling into any predictable pattern. A substantial rise in Gold Spot will have an immediate impact on the prices of most U.S. Gold. Silver's impressive rise didn't help generic Morgans, which slipped slightly in reaction to substantial buyers at slightly lower levels.

Heritage Numismatic Auctions has released their official 1993 A.N.A. Sale, being held July 27-31 in Baltimore. With 338 pages, you can be assured that the catalogue contains something of interest for every collector. Collectors of Territorial and California Fractional will find more than 150 lots of exceptional interest. A strong offering of Patterns will have those specialists actively competing. The catalogue is especially strong in Gold, with enough early issues and rare dates to guarantee that buyers will have to make difficult decisions. The trio of 1914-S Barber coins (Dime, Quarter & Half) in NGC66 will be hammered to a connoisseur appreciating rarity and quality. Among the certified highlights:

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but [illegible] premium over non-P/L strikes.

How to Put the Most Cash in Your Pocket !

1928
PCGS
MS65
$20
9189.85/9637425

Not all MS65 coins are equal. In today's coin market, the big question is, "who says it's MS65?" And both coin dealers and the coin buying public are choosing PCGS as the best answer to that important question.

There are many factors that contribute to the PCGS position as the grading service of choice for the rare coin industry. The bottom line is that PCGS COINS ARE WORTH MORE! In almost all instances and in almost all grades, a coin in a PCGS holder will sell for more than a coin graded by any other grading service. Coins graded by other services sell at a discount to PCGS prices. That is a fact.

But don't take our word for it. There are two facts that nobody will dispute that prove that PCGS coins are the most desirable. We've graded more coins than any other grading service even though we charge more to grade coins. Why do dealers continue to pay the higher PCGS grading fees? Because even after our fees, their coins are worth significantly more. And there's a simple test that you can do to prove to yourself that PCGS coins bring the most cash to your pocket. Let's focus on the two facts that show why dealers choose PCGS.

Fact #1:

PCGS grades more coins than any other grading service. PCGS has graded over three million coins (3,106,396 to be exact). No other grading service has even graded one million coins. Every month PCGS grades more coins than all the other grading services combined. In most months PCGS grades twice as many coins as all the other grading services combined. And this has been the case for every month since PCGS opened its doors in February, 1986.

Fact #2:

PCGS charges more to grade coins than any other grading service. PCGS is the most expensive grading service.

How do these two facts prove PCGS grading equates to the highest value for your coins? Simple. The majority of coins submitted to third party grading services belong to professional coin dealers. The overriding concern in business decisions made by coin professionals is maximum profits. Coin dealers want to sell their coins for the highest possible fair price. Coin dealers prefer to have their coins graded by PCGS (and pay the higher PCGS grading fees) because they make the most money that way.

A Simple Test to Show You How to Use Grading Services to Maximize Cash in Your Pocket

You can test the value of coins in the holders of the various grading services by making a few phone calls. Many dealers will quote prices over the phone for third-party graded coins. Pick out one or two coins you own or are considering buying. Call a few dealers and say you want to sell these coins. Say you have one or two examples of a certain coin that have been graded by PCGS and you also have one or two examples of the same coin that have been graded by another grading service. When you ask for their cash "buy" price, coin dealer "buy" prices for PCGS graded coins will be higher than for coins graded by other grading services in almost all instances.

When some dealers sell you coins they may tell you that the prices are the same, but when it comes time to put their own cash on the line, coin dealers will almost always pay the most for PCGS graded coins.

If you do a little checking around you will soon prove to yourself two extremely important facts about today's coin market. FIRST, PCGS COINS ARE WORTH THE MOST MONEY AT SELLING TIME. SECOND, COINS GRADED BY OTHER GRADING SERVICES SELL AT A DISCOUNT TO PCGS PRICES.

Warning: Don't Overpay When You Buy Coins

Most coin dealers are honest businessmen trying to provide a quality product at a reasonable price. Unfortunately, a few dealers use deceptive sales methods to overcharge for coins by misrepresenting the value of coins which have been graded by grading services other than PCGS. These dealers sell non-PCGS coins at PCGS coin prices and tell clients there's no difference in the grading services.

Don't Be Fooled

If a dealer offers you a non-PCGS coin and tells you it's worth the same as a PCGS coin, call a few other dealers and say that you have the same coin for sale and see what reaction you get. You'll quickly find out if the dealer trying to sell you a non-PCGS coin is telling you the truth.

How to Buy the Best Coins

When you buy rare coins, you certainly deserve to get what you pay for. If you buy a coin for the PCGS price you should get a PCGS coin. Don't let someone try to talk you into second best. Choose coins that offer the most cash in your pocket when it's time to sell... BUY PCGS COINS!

Dealers "Gearing Up" for ANA Watching Market Closely for Directional Clues

The market continues its steady (and only mildly erratic) course towards the ANA Convention in Baltimore. Selected areas of the market are showing plenty of vigor, and Mercury Dimes outdid themselves with plus signs this week! It only takes a Bidder or two showing demand for the generics and the Merc chart almost bursts with plus signs — more than 100 against only four discounted sells! While the advances in Morgan Dollars may not look quite so spectacular, they continue strong with their usual healthy levels of activity. These are two different series with different behavior by the Bidders, but both are helping to buoy the market.

Sellers this week seemed to be more concerned with timing than getting the highest market price for their wares; hopefully, this is just a little 'quick' inventory pruning before ANA by sellers who want to approach Baltimore with 'cash in hand'. There are times when the quick sale (for certain money) is perfectly logical, especially when the selling price is just a small increment below the highest Bidder. However, when a coin sells for less than $7,000 and there is an active $8,000 Bidder, it means that a whole lot of money is being left on the table. Or, it could mean a small but useful profit to the dealer who has searched the market a little more thoroughly, and feels comfortable with assuming an arbitrage role. The success of such an activity can readily be seen when a minus-sign Bid is followed the next week by a plus-sign Bid back up to the original level.

Silver Commemoratives remain steady, with just a handful of changes sprinkled across the charts. Gold Commems, on the other hand, are declining on offers to sell under current Bid levels. Plus signs on the Morgan Dollars are outpacing declines by a two-to-one margin, and Peace Dollar advances are also in the majority. Mint State Type is still advancing against generally steady levels, but some discounted selling is also becoming apparent. Mint State Gold Type is mixed on the plus side. Proof Type which had been one of the main components of this 'budding boom', showed a little more weakness than expected by the enthusiasts; the quick, discounted sell may be great for cash flow, but it makes the market look weaker than necessary. Dealers are still looking carefully at Mint State type and Proof type to signal market strength.

Among the specialty series, Buffalo Nickels turned in a performance that can only be described as steady. In the coin market, "no news" is often "good news", but we will admit to having been spoiled by the incredible demand displayed by the Buffs since the beginning of the year. In January, the Buffalo Nickel CMI stood at 721.93, and it has steadily climbed to the 749.30 level; nice steady growth is the foundation on which a healthy rally can proceed. Mercury Dimes, as noted, are enjoying a growth in demand for generics; plus signs here remind us of how cheap these lovely little pieces of numismatic art and history are in today's market. Walking Liberty Halves also turned in a performance on the strong side of steady this week. Proof Singles were mixed. All in all, the market continues to look steady with some real signs of strength; just what the 'dealers ordered' for a successful ANA Convention.

YOU CAN TELL A LOT ABOUT A GRADING SERVICE BY THE COMPANY IT KEEPS.

Since our inception, the Numismatic Guaranty Corporation of America has kept company with some of the world's greatest collectors: Lovejoy, Pogue, Milas, and most recently, Ed Trompeter. Why do these distinguished collectors choose NGC to grade and encapsulate their priceless treasures? Because of our honesty, integrity and consistency in grading.

The Trompeter Collection

1907 High Relief $20 Gold Piece, Graded MS-69, is virtually perfect.

Ed Trompeter spent years compiling *the finest and most complete* U.S. Proof Gold Coin Collection. To preserve it for future generations, Mr. Trompeter insisted on NGC to grade and encapsulate the famous collection. He chose NGC not only for our consistent grading, but also our quality holder to best display the proof gold coins. Mr. Trompeter strongly believed that the Numismatic Guaranty Corporation of America was the one and only grading service to which he could safely entrust this unique collection.

NGC takes great pride in the reputation that we have built throughout the years. We are honored to be in the company of such great collectors and to be their choice to grade such superlative collections. NGC pledges to continue this long standing tradition of excellence and grading integrity. We will always provide precise, independent grading for all numismatists worldwide.

Market Finds Support In Lighter Trading Active Baltimore Still Predicted

It has often been repeated that "no news is good news"; in the case of the current coin market, it is quite likely that the "no news" describing the coin market is a direct result of the "bad news" experienced by large parts of the country recently. The heat wave on the East Coast was so intense and prolonged that it made the rest of the country uncomfortable just hearing about it. The storms which have drenched the Midwest have put entire communities under water, and government calculators are running full-blast trying to determine the billions in damages. Whether facing fire or flood, you can bet that consumers had more important things to do than visit their local coin dealer.

Between the coin shops closed by the disasters, any number of vacationing dealers, and dealers getting ready for next week's activities in Baltimore, market activity was light this week. For all that, there actually is "news" in the coin market, even if it is a repeat of the last several weeks. The coin market continues its recent levels of activity, with stable prices predominating. The lower levels of summer activity mean fewer changes, but of the issues moving, gainers out-distanced losers by more than two-to-one.

Silver Commemoratives continue to exhibit selected advances in the 'better grades', supporting the predictions of a few dealers that 'Commems will be hot' at ANA. That prediction, incidentally, almost always refers to the Silver Commems; the Gold Commems suffered another wave of minus signs this week. Morgans are also looking healthy for ANA, with plus signs resulting from selective Bidding on individual coins. Peace Dollars are mostly steady but again, are not looking quite as strong as the Morgans. Most Mint State Type levels are steady, but the chart continues to show minus signs on discounted selling, a trend that several dealers have noted; the "better news" is that Mint State Gold Type showed a strong upward move this week.

Proof Type was steady this week, with a few pieces moving in either direction. Proof Gold Type was likewise steady, although the few discounted sells were serious enough to cause a drop in the Proof Gold Index. Among the specialty series, Buffalo Nickels resumed their strong advance, with the majority of plus signs again in the MS65 & 66 columns. Mercury Dimes were steady, with advances outnumbering a handful of declines (which were sufficient to cause a minor drop in the Mercury Dime Index). Walking Liberty Half Dollars also put on a display of strength, with nearly a 'century' of plus signs scattered across the chart. Proof Singles showed more movement than they have recently, with advances outnumbering declines on discounted sells.

Dealers and collectors looking to buy certified material at auction at the ANA will have still another opportunity. In addition to Superior's sale and Heritage Numismatic Auctions' official ANA sale, Heritage has also released a catalogue for their Bullet Auction to be held July 28th in Baltimore. Collectors and investors seeking quality coins will have quite a choice — the Bullet sale alone has more than *400* pieces grading MS or Proof 65 (or higher!) scattered among its 900 lots.

World Wide Leaders In The Coin Industry

Brussels Paris Tampa Zurich

Why haven't I heard of National Gold before this?

NGE has been primarily involved in the wholesale market place since 1979. We have also been a major supplier to a number of the leading retail firms. However, due to various contractual obligations with these other companies, NGE was unable to offer our coins directly to the public. With the expiration of these agreements, NGE has developed what we think is a revolutionary concept for the coin industry. Industries such as apparel, stocks, bonds and computers have begun offering reduced pricing to the public. NGE has taken this concept one step further by offering our coin inventory at prices generally available to the dealer community only. We want to be your rare coin "superstore."

Who is National Gold Exchange?

- Incorporated in 1979
- Corporate headquarters in Tampa, Florida
- Representatives in major European cities
- Members of most major numismatic organizations
- Member of the Professional Numismatic Guild (Mark Yaffe)
- Major importer of U.S. gold coinage from Europe
- Market maker on numerous trading networks

Please stop at our booths *412 & 511* at the Baltimore ANA. Whether you are buying or selling we would appreciate the opportunity for you to compare our pricing with anyone in the coin business!

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,096,270 rare U.S. and world coins with a cumulative declared insurance value of $4,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Seven years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 650 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is the Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years. If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $20 St. Gaudens shown above was submitted by PCGS authorized dealer Jack Hertzberg. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $4,000,000,000.

Active A.N.A., Steady Market
Coins Changing Hands At Current Levels

Initial reports from the ANA Convention in Baltimore are very positive, as dealers report pleasing levels of activity. Somewhat surprising is the news that buying and selling seem to have been in balance from the beginning of the show. Dealers were predicting that either buying or selling would dominate the early days, as the market sought direction. Balanced trading, on the other hand, is a very healthy sign, as it means that everyone on the bourse is buckling down to the business of moving coins in & out of inventory, instead of trying to 'outguess' the market. The driving force behind dealer buying is described as being equal parts "Want List, Inventory Balancing, & Retail Bourse Customers".

The quiet strength of the current market should come as no surprise to dealers who have been busy buying and selling coins recently. For several weeks, the ***Bluesheet*** has been exhibiting steady growth — *slow* but steady growth; this week again, plus signs outnumber declines nearly two-to-one. As a result of the steady nature of the market, we are also seeing more sell messages (and most of them at the expected levels *above* Bid). Silver Commemoratives, which had been showing some decent increases lately, were steady this week, with only a few adjustments in both directions. Gold Commemoratives, which had been under some selling pressure, were steady this week. Morgan Dollars were steady, with plus signs (caused by some generic increases) nicely outnumbering the few discounted sells. Peace Dollars were steady, with most of the scattered changes being increases. Mint State Type remains steady, although anything less than solid plus signs on this chart concerns those dealers who look here and to Mint State Gold Type as the leading indicators. The news in Mint State Gold Type was more pleasing, with an abundance of plus signs below MS66 sparked by true *numismatic* demand (that is, *not* driven by an underlying rise in spot gold). As one dealer explained in a phone call from the bourse, "Higher Gold means a happy ANA!".

Proof Type, which had been showing more strength than Mint State Type, was the scene of some profit-taking this week, as discounted sells forced down several issues. Proof Gold Type was steady, with just a few increases. Buffalo Nickels took another week off, but they remain an area of solid demand. Mercury Dimes, which have also been alternating between "active" and "asleep", showed a sprinkling of generic advances this week. Walking Liberty Halves were a little more active, with advances (many of them generics) and declines nearly in balance. Proof Singles also turned in a mixed performance.

In summary, the strength of this market is *not* in its advances, although the plus signs continue to outnumber the declines. Instead, the real show of strength is in the level of activity, and the number of coins trading hands *at* current levels. As long as dealers are able to move the inventory they wish, and pick-up the inventory they need, their customers will be satisfied and the market will stay healthy. That in itself may be the best long-term news the dealer community has had in some time.

WE NEED YOUR RARE COINS

If you have coins to sell, please contact us.

Silvano DiGenova and Stuart Levine of Tangible Investments of America, Inc. and Steven Contursi of S.L. Contursi, Inc. will be merging their respective rare coin enterprises. This remarkable combination of talent will combine to form a major rare coin organization of unprecedented experience, knowledge, talent and integrity.

AMONG THEIR COMBINED ACHIEVEMENTS ARE:

- ☆ Founding member of PCGS, today the largest third party grading service. Also instrumental in assembling the PCGS grading set.
- ☆ Orchestrated the sale of the famous Wayne Miller Silver Dollar collection, which realized over $1 million in 1986.
- ☆ Purchased and sold the Clifford-Kagin Territorial gold collection valued at over $2.9 million in 1988.
- ☆ Major buyers in the famous Garrett, Bareford, Eliasberg, Brand and Carter sales.
- ☆ As Senior Vice President, Steve Contursi guided the growth of Blanchard and Company, Inc. from a $1/2 million in U.S. numismatic sales to over $4 million in sales per month.
- ☆ Key buyer in the Norweb collection auctions, purchasing in excess of 10% of the entire collection.
- ☆ Number one purchasers in the:
  James A. Stack sale
  Trompeter Gold sale
  Floyd Starr sale
  Stack's 55th Anniversary sale
  these and many, many more sales.
- ☆ Purchased the last part of the fabled Lavrene Redfield hoard.

Together these unique partners have purchased in excess of $1/2 billion in U.S. rare coins. Now they combine their numismatic expertise, overall integrity and financial stability. Our multi-million dollar inventory will speak for itself. This partnership combines over fifty years of numismatic experience. Call today and see what a difference it is to deal with a real Rare Coin firm.

National Gold Exchange, Inc.

World Wide Leaders In The Coin Industry

Brussels Paris Tampa Zurich

Why haven't I heard of National Gold before this?

NGE has been primarily involved in the wholesale market place since 1979. We have also been a major supplier to a number of the leading retail firms. However, due to various contractual obligations with these other companies, NGE was unable to offer our coins directly to the public. With the expiration of these agreements, NGE has developed what we think is a revolutionary concept for the coin industry. Industries such as apparel, stocks, bonds and computers have begun offering reduced pricing to the public. NGE has taken this concept one step further by offering our coin inventory at prices generally available to the dealer community only. We want to be your rare coin "superstore."

Who is National Gold Exchange?

- Incorporated in 1979
- Corporate headquarters in Tampa, Florida
- Representatives in major European cities
- Members of most major numismatic organizations
- Member of the Professional Numismatic Guild (Mark Yaffe)
- Major importer of U.S. gold coinage from Europe
- Market maker on numerous trading networks

Please stop at our booths *412 & 511* at the Baltimore ANA. Whether you are buying or selling we would appreciate the opportunity for you to compare our pricing with anyone in the coin business!

CERTIFIED COIN DEALER newsletter

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

Vol. VIII No. 32 August 6, 1993 Single copy price $3.50

Successful ANA Ends Upbeat Active Show Buoys Market

Dealers were leaving Baltimore with smiles on their faces following a very successful ANA Convention. During the week, traffic and purchasing had been steady with early reports on the show's success covering the terrain between "solid" and "great" As strong as the bourse action was during the week, it remained until Saturday for the *crowds* to appear. While it is not unusual to find weekend crowds at major shows, these numismatists came prepared to buy! Dealers, naturally, were only too pleased to accommodate them, and the final splurge of activity "made the show" for many.

Buyers of certified material had plenty of auction opportunities. Superior Galleries' $3.5 million plus Baltimore '93 Auction included a large number of certified lots. Eight of the top 30 lots, including the highest-priced coin sold, were Pattern coins (just in case anyone has missed the resurgence of interest in these numismatic rarities).
